

The current state of college admissions:

How are your applications being read with or without testing?

Wednesday, September 29th
at 3 pm (PT) / 6 pm (ET) & 6 pm (PT) / 9 pm (ET)

A moderated Panel of undergraduate college admissions experts from a variety of institutions will provide information about whether or not students should submit test scores to test optional colleges and universities. They will also discuss how the application process has changed as a result of test optional admissions and what students can do to accentuate other important elements of the application.
